

# Your Exclusive Collection Visit from WIS

## For Independent Providers

Keep your Davis Vision<sup>®</sup> Exclusive Collection inventory fresh with an inventory event! Read on to see how you can help your inventory event go smoothly.

- A representative from WIS International (formerly known as RGIS) will contact your office by email and phone call to schedule the date and time of the inventory event. Please make sure you have someone available to let the WIS representative in.
- Prior to your inventory event, a box of Davis Vision<sup>®</sup> frames will be shipped to your office. Please place the box in a secure location for when the WIS representative arrives on the agreed date and time.
- **Do not open the box** when it arrives. Please ensure that all of the Exclusive Collection is in one central location. This is so WIS can have easy access to the collection for the inventory event.
- When the WIS representative arrives, they will conduct an inventory of your Davis Vision<sup>®</sup> Exclusive Collection frames by scanning your current inventory. If this is an update event, they will box up the older frames and replace them with the latest frames we have available.
- A return label for the old frames will be inside the box so they can be shipped back to VPI. **Please do not discard the return label.**

If you have any questions or concerns, please contact [VersantHealthCollection@versanthealth.com](mailto:VersantHealthCollection@versanthealth.com).
